

COMMUNICATION COVID-19

GROUPE DEL VASTO

IMPORTANT NOTICE

March 24, 2020

As you know, the COVID-19 situation has been in constant evolution over the past few days, as Federal and Provincial governments issue numerous guidance, directives, and orders to combat the spread of this virus.

Since the Government declared a public health emergency, we have worked hard to keep our employees, community and business safe. We understand that the combined health crisis, social isolation and financial disruption is extremely unsettling for everyone.

As of late Monday, the government has restated its position, confirmed that automotive repair is an essential service, and therefore, allowing us to support the needs of our customer base. However, the process of 'containment' and 'slowing the spread' has created a state of "Economic Hibernation" that is significantly affecting our industry and we are under the obligation to make changes to our business hours as well as to the services normally offered.

You will find below the opening hours for each of our warehouses:
